

InTouch America's CDMA Digital National Price Plan Map

Important Map Information

The InTouch America's CDMA National pricing rate map shows approximately where rates apply and is **not** a depiction of actual service, or rate availability or wireless coverage. Check roaming indicator on your wireless phone to determine actual areas where rates are available. The mapped territories contain areas with no service. Wireless service subject to network and transmission limitations, including cell site unavailability, particularly in remote areas. Alaska has limited service. Customer equipment, weather, topography and other environmental considerations associated with radio technology also affect service.

The following cities and their surrounding areas are the top 200 licensed markets in the InTouch America's CDMA National network. Other cities and towns that are in the InTouch America's CDMA National rate area are not shown at this time. In these areas, you will be charged InTouch America's home airtime rates when using a tri-mode phone with InTouch America's most current CDMA
